

# PALTOWER 50

**Automatic pallet dispenser  
for storing and having ready  
up to 50 Euro pallets  
on little space.**

- simple
- fast
- safe
- comfortable
- time-saving
- space-saving
- robust
- reasonably  
priced

**By using a hand pallet truck 1 to 5 pallets can be  
simultaneously loaded and unloaded at ground level.**

# PALTOWER 50

## Advantages:

- quick availability of pallets, no forklift drivers license necessary
- ergonomic loading and unloading with a hand pallet truck (no backache)
- very simple handling
- can avoid accidents at work, very safe pallet handling process
- clears space as up to 50 pallets can be stored on top of each other
- pallets can be stored where they are needed, as paltowers have a small base area
- avoids expensive unproductive waiting periods pallet availability can be scheduled and processing is fast.
- Huge Magazine size allows loading and unloading of paltower by a forklift driver to be pre-scheduled
- Simultaneous Loading and unloading of up to 5 pallets (faster than by a forklift)
- Defined storage location for pallets avoids searching for pallets and shop floor looks tidy.
- Paltower could also be located outdoor (option), guarantees dry pallets and theft protection
- stored number of pallets is visible on display.
- Longevity by robust and solid engineering and generous dimension
- No compressed air supply necessary
- Very quiet operation
- Reasonably priced

# PALTOWER 50

## Possible field of application:

- everywhere where a smaller amount of pallets remains or is needed
- everywhere where tidiness is important
- everywhere where safety is required
- everywhere where pallet handling costs need to be reduced
- everywhere where you do not have enough space for pallets
- everywhere where pallet handling processes shall be pre-scheduled
- everywhere where dry pallets need to be stored outdoor
- everywhere where pallets need to be theft-protected

## Ease of operation

By pushing only one button, number of pallets for loading and unloading can be selected.

Wait for around 2 to 6seconds until the display indicated (depends on selected number of pallets).

Open the door (comfortable sliding door with counter weight).

Remove or insert pallets with hand pallet truck.

Close the door.

# PALTOWER 50

## Specification:

Storing capacity for up to 50 Euro pallets  
Display shows number of stored pallets  
Solid engineering construction (approx. 750 kg)  
Very simple handling due to controller brain  
Closed pallet channel ensures high safety  
Very quiet operation  
No compressed air supply necessary  
Service interface available  
Longevity by overdimensioned mechanics  
Longevity by overdimensioned electronics  
Well arranged, easy accessible Control cabinet  
Height can be adapted

## Technical data:

Lenght x width on ground level: 1,34m x 1,23m  
Lenght x width on drive shaft level: 1,69m x 1,23m  
Weight: approx. 750 kg  
Power supply: 3 x 400V  
Connection: 16A CEECON  
Input motor: 2,2kW  
Colour machine: RAL 3004  
Colour tower: RAL 7035

## Heights:

height	pallet capacity
7660mm	50 pieces
7090mm	46 pieces
6520mm	42 pieces
5950mm	38 pieces
5380mm	34 pieces
4810mm	30 pieces
4240mm	26 pieces
3670mm	22 pieces
3100mm	18 pieces
2530mm	14 pieces
1960mm	10 pieces
